Appearance of Cincinnati Orchestra Evolves Into Demonstration for Ysaye.

The Times feels that the concertgoing public of Washington stands in need of a resourceful apologist to justify its failure to gather in force yesterday afternoon at the National to hear the Cincinnati Orchestra and welcome its famous conductor, Eugene Yeave. As it was, the scattering audience was so warm in its expressions of affection for the great Belgian and so enthusiastic in its appreciation of his orchestra's work that the occasion may be said to have resolved into a concert intime. At the end of Saint-Saens' "Marche Heroique," which opened the program, Mr. Ysaye received a beautiful floral testimonial and suddenly found himself the sole center of attention, for his whom he had called upon to rise to share the applause, themselves joined in the demonstration. And so it was throughout the afternoon; the unanimity and spontaneity of the enthuslasm evoked as the program proceeded was splendid testimony to the power which lies in great music interpreted by fine musicians.

painter, who lost nis life in a dessortie against the Germans in the outskirts of Paris in 1871, revealed a virility and martial spirit n Saint-Saens to which he rarely gives expression, while tucked away in the midst of these turbulent and heroic phrases is a trio in the tenderest of elegiac moods. The symphony was Franck's in D

finor, his only one. It was com-leted in the autumn of 1888, sward the end of his third period, n which he brought forth those works, in the field of vocal music,

hich his great prestige and fame rest. In the course of a discussion of this symphony, Vincent d'Indy challenges the world to find "a composer in the second half of the nineteenth century who could-and didthink as loftly as Franck, or who could have found in his fervent and enthusiastic heart such vast ideas as those which lie at the musical basis of (this) symphony. • • ""

Let us check the cry "Chauvinism," that may come to the lips as we read this and think of Brahms and his First Symphony, of Dvorak and the "New World Symphony," of Tschaikowsky and his Fourth, Fifth or Sixth Symphonies, for certain it is that this majestic work possesses an extraordinary power. The themes as first given out have an unusual simplicity of melodic outline, yet withal a haunting quality that invade the memory and refuses to become dis-lodged, so that later on, in the midst of a rich and complex instrumentation, the beautiful germinal songs are still heard running deep below the surface. Ysaye's orchestra played it. so it seemed, under the influence of a fine inspiration, and one was set to wondering what old memories came to him as he conducted the symphony of this great musician and beloved friend and teacher of nis youth.

Mr. Ysaye was also on the pro-gram as a composer. The selection was a tone poem, "Exile," for string orchestra without basses. There is a lin choir alone to give rather unre-strained expression to the elegiac qualities of the instrument, "Exile," however, is distinguished by a reserved observance of this practice and instead by a more sober and con-trolled expression of grief and despair. The "March Herolque," written in The introduction to the first act of honor of Regnault, the celebrated d'Indy's "Fervaal" followed. It was

given in a manner which revealed all the tender and contemplative, yet sensuous elements in the medieval story of Guilhen, the Saracen princess, and Fervaal, the Celtic knight. The concluding number was the brilliant "Sylvia" suite of Delibes. verve and abounds in great splashes of color, and it was given an interpretation which brought out these

The Spartans, in Greece, 500 B. C. used sepia, the most ancient ink, for tracting the attentions of Officer Morchamber music, and symphony, upon making inscriptions on sarcophagi.

Pinchot is resting his argument position he was promoted upon the cerned in six years in the Eastern resignation of C. E. Talbot. Mr. Broche's former position of assistant twelve to fifteen years all over the manager is now filled by Edward J. United States.

If such a famine comes in the

United States there is, according to inchot's presentation of the case no relief to be expecte dy us from any other part of the world. He thinks that Canada will not send us any lumber to amount to anything, and that Mexico probably will not. What is important to us is the reight of lumber that is suitable to Next to the Pane-Aldrich act, it is

enerally agreed that the controversy between Pinchot and Ballinger had more to do with the overthrow of Taft made the mistake of not facing the facts seriously at an early enough point. He did not like trouble, and he accepted the view given to him by his Secretary of the Interior.

Pinchot's protests were continued and emphatic, but, as the Administra-tion stood pat, he went into open opposition, with the result that the facts uncovered made such an imman prominently identified with conservation, was put into his place. The present controversy does not concern the Interior Department, It

has to do only with the Department f Agriculture. Pinchot supported President Harding in the recent election, and it is generally believed that the President has a good sense of danger ahead. Therefore, there is every reason to suppose that he will take an interest in the legislative fight that is sched-uled for next month.

CHICAGO, March 12.-Prohibition has made dances more naughty, ac-Protective Association, which asserts that more objectionable dances are now being danced than ever before. "law of compensation" was the way the matter was explained. The

report says: "In 1916-'17 at 60 per cent of the dances immoral dancing was permited. This year objectionable dancing was reported at over 70 per cent of he places inspected.

"Extreme dancing and jazz music were noted in the more expensive places, as well as in the cheaper ones. There probably can be no fundamen al improvement until the public taste demands higher musical standards. "It is very true that if you take one leasure from a man he will find compensation in another," declared Dr. James Whitney Hall, noted alienist. The dances will no doubt be faster and more risque as the lid is tightened. Man must find some way compensate himself for the thing that has been taken away from him.' The Rev. John P. Brushingham, of

morals commission, declared; The young women we come in contact with at the Lowndale Hospital used to say: 'It was my first drink. Now she says: 'It was my first dance.'"
